# W-Drain premium quality stainless steel drain set

size: 60-, 70-, 80-, 90-, 100 x 7 x 9,5 cm

### Products specifications:

- brushed stainless steel main
- body with sealed edge
- horizontal siphon, that can be rotated 360 degrees!
- low installing
- can be installed directly under the shower cabin's door or next to the wall
- the grid is available in 5 different designs
- resistant to acid and base
- flow rate: 30 l/min
- the main body is designed to avoid stagnant water

### Content of the package:

- 40/40 extension
- 40/50 adapter
- leveling feet, that can slide
- on the main body
- picking hook
- anti-odor siphon
- sealing foil

1. W-Drain Linear premium quality stainless steel drain set with grid
2. W-Drain Square premium quality stainless steel drain set with grid
3. W-Drain Flat premium quality stainless steel drain set, can be coated/ with total cover
4. W-Drain Dots premium quality stainless steel drain set with grid
5. W-Drain Wavy premium quality stainless steel drain set with grid

# W-Drain premium quality stainless steel floor drain

size: 15 x 15 x 7,5 cm

### Products specifications:

- brushed stainless steel main body with sealed edge
- horizontal siphon, that can be rotated 360°
- low installation
- grid available in 2 designs
- resistant to acid and base
- flow rate: 40 l/min

### Content of the package:

- 40/40 extension
- 40/50 adapter
- anti-odor siphon

1. W-Drain Square premium quality stainless steel floor drain
2. W-Drain Flat premium quality stainless steel floor drain, that can be coated/ with total cover

# SMC shower tray

The SMC is a special glass fiber reinforced, smooth texture polyester sheet, which is pressured under high temperature, polymerized into the appropriate form of compressed elements to give it its final form and unmatched features.

This manufacturing process has been well established in other industries (aerospace, mechanical engineering, automotive industry), though the sanitary market has just recently discovered and started to begin to perceive the benefits of it over against previously used materials and technologies.

SMC shower trays' durability, quality is constant, thanks to the impregnated fiber reinforcement, but weights half as much as cast

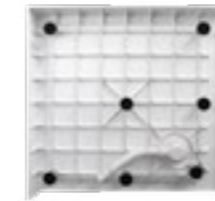

marble tray with similar characteristics. The ribs at the back side of the tray are strengthened the structure of the shower, while its weight is only slightly increases.

The soft material makes possible high-formatting, so the sharp corner shower SMC provides a much more aesthetic spectacle as acrylic counterparts.

The shower tray made of SMC material is high impact resistant, has a large compressive, flexural and tensile strength, does not crack, its temperature stability is odd (non-thermal expansion), chemical resistance, has a good thermal insulation capacity, easy to clean and, of course, waterproof.

In case of flat shower tray recessed preparation necessary for the siphon.

For more details ask our retailers.

- thermostatic mixer
- rackless hose
- height-adjustable hand shower holder
- height-adjustable and tilting tropical shower

## rundo shower column

30 × 40,1 × 130,5 cm

### Products specifications:

- white faucet cover
- chrome shower column
- brass faucet body
- ceramic cartridge
- height adjustable handhold holder
- adjustable height and tilt tropical head shower

## lucia shower panel

18 × 57 × 156 cm

### Products specifications:

- brushed stainless steel panel
- can be mounted in corner,
- 2 adjustable massage
- tropical shower with 5x10 nozzle
- ceramic mixer valve
- single-lever mixer
- hand shower

## paloma corner shower panel

20 × 55 × 140 cm

### Products specifications:

- white tinted aluminum panel
- tropical shower
- 2 adjustable hydromassage
- hand shower

## mariner silver shower panel

19 × 50 × 160 cm

### Products specifications:

- silver, stainless steel panel
- hydromassage with 2 pcs of 5x10 needle nozzle
- tropical shower with 5x10 nozzle
- ceramic mixer valve
- single-lever mixer
- hand shower
- thermostatic mixer with 4 separate shower taps

## mariner black shower panel

19 × 50 × 160 cm

### Products specifications:

- black, stainless steel panel
- hydromassage with 2 pcs of 5x10 needle nozzle
- tropical shower with 5x10 nozzle
- ceramic mixer valve
- single-lever mixer
- hand shower
- thermostatic mixer with 4 separate shower taps

## bonita shower panel

24 × 50 × 165 cm

### Products specifications:

- aluminum panel with black and white color
- tropical shower with 5x10 needle nozzle

# Poli-MAX™

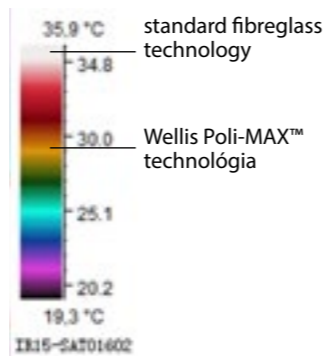

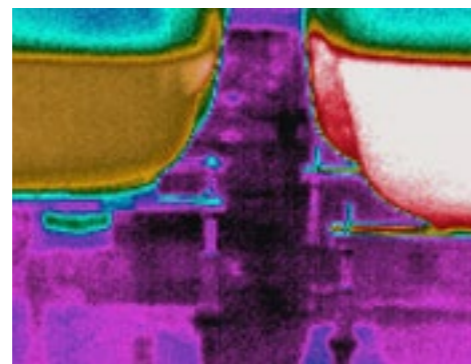

## CHOOSE A PRODUCT WITH POLI-MAX™ REINFORCEMENT

For Wellis products, we use a special acrylic polyurethane foam to strengthen the shower and whirlpool body. It is applied in 3 layers for a perfect dimensional stability. We manufacture products with excellent features that will serve you for many years.

### ADVANTAGES OF BATHTUBS WITH POLI-MAX™ REINFORCEMENT

- The extraordinary thermal insulation capability increases the comfort in the bath or hot tub - without need to refill hot water - offers pleasant relaxation time while saving energy. It has an excellent sound insulation, which substantially reduces the amount of noises produced by the product walls. This means your neighbor won't get disturbed if you feel like having a refreshing massage in the middle of the night.
- With your purchase you will support the environmental protection because in contrast to the fiber optic technology resulting from the PU processing, no harmful emissions are created. The resultant products have longer service life. Thanks to the advanced technology and high quality raw materials used, our products comply with all EU standards.

### Excellent temperature keeping

As you can see in the thermogram, the outer temperature of the POLI-MAX™ reinforced bath shell is 31°C (water temperature is 35°C). In contrast, the outer temperature of glass fibre reinforced bath shell is almost the same as that of the water.

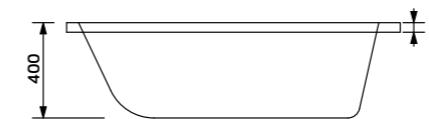

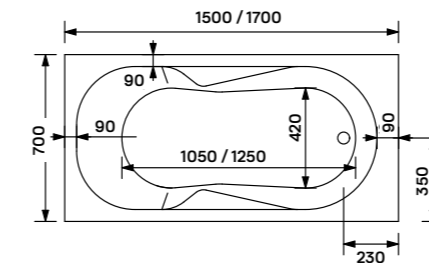

So, the POLI-MAX™ reinforcement is a much better insulator. Consequently, it saves money for you, increases the possible duration of having a bath and makes it be a better experience.

## tiny acrylic bathtub

150 × 70 × 60 cm - 165 l  
170 × 70 × 60 cm - 226 l

### Acrylic bathtub

- 4 mm thick acrylic tub body
- POLI-MAX™ reinforcement on the tub body
- standard foot

According to the narrow edge of Tiny bathtubs, it is not possible to install faucet on them. We recommend to choose wall-mounted faucet for these models.

- POLI-MAX™ reinforcement the tub body
- standard foot

# Wellis V-Concept™

## BACK MASSAGE SYSTEM

The peculiarity of the WELLIS V-Concept back massage system, which was developed in cooperation with massage therapists and engineers, is the size and arrangement of the jets. Previous models had a common or two large jets and the water jet was aimed directly at the spine. In contrast, the smaller jets of the WELLIS V-Concept model massage the muscles of the back side of the spine because of their arrangement, resulting in a fast and beneficial relaxing effect.

## Wellis hydromassage bathtubs

When designing WELLIS massage systems, we were strived to create a wide product portfolio ranging from simple to modern, for example a hydro massage system equipped with television. We are committed to offer everyone the right system, which provides the maximum comfort in everyday life. Our massage systems can be installed in any tub type of your choice. So you just have to decide which system fits your needs and your home the best.

### Pneumatically operated massage systems

#### Hydro™ equipment:

- pneumatically controlled hydro massage system
- air regulator

### Electronically controlled massage systems

#### E-Plus™ -feel the unique hydro massage experience!

- Touchscreen Computer
- digital hydro massage and whirlpool system
- air control
- Chromotherapy lighting
- Drying system
- Water level sensor
- Security lock

#### E-Drive™ TOUCH - easy to operate, use, love!

- LCD Computer
- digitally controlled hydro massage and whirlpool system
- air control
- chromotherapy lighting
- drying system
- disinfection with ozone
- water level sensor
- security lock

#### E-Max™ TOUCH - Discover all aspects of a perfect bath!

- digital LCD display
- digitally controlled hydro massage and whirlpool system
- air control
- water level sensor
- chromotherapy lighting
- ozone generator
- security lock
- thermostat
- drying system
- FM radio
- exclusive chromotherapy lighting: 12 LED lights on the side of the tub

#### Silent™ hot air blower

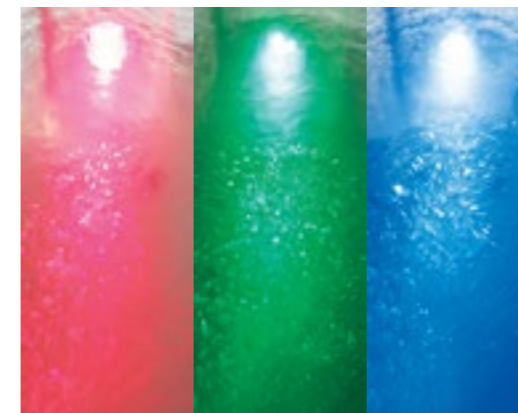

The warm air bubbles massage your skin gently combined with a pleasant effervescent effect. Its other big advantage is that this slows the cooling of the water. With the Silent™ engine, we have reduced the noise level of our whirlpool motor with hot air.

#### Wellis SLIM jets

The new SLIM WELLIS jet and the suction protrude only 1.5 mm from the tub and thus guarantees a pleasant bath. Thanks to the unique design, the tubs equipped with hydro massage system towers offer outstanding convenience and design.

### Wellis chromotherapy

#### Welliscolor™ Chromotherapy lighting

Colors can affect our mood and emotions, which in turn have an effect on our bodies. The control units of the tubs change colors independently or you can select a button from the color that best fits your mood.

#### Exclusive chromotherapy

Direct underwater lights at the side of the tub consisting of 12 LED bulbs glow in accordance with the built-in Chromotherapy lighting of the tub. The exclusive chromotherapy lighting can be ordered as an option to the E-Plus™ and E-Drive™ TOUCH massage systems and is standard in the WELLIS-Tub with E-Max™ TOUCH massage systems.

# AURA AROMATHERAPY SHOWER HEAD

#### Aroma therapy

The gentle aroma scent from the natural aroma oil, gives you a more enjoyable shower time.

#### Removal of residual chlorine

The Aroma vitamin C filter removes 98% of residual chlorine in tap water so that you can use clean water to shower your skin and hair.

#### Vitamin C

Vitamin C enhanced shower water with a Vitamin C equivalent to 3,000 lemons, keeps your skin smooth and your hair well nourished.

#### Water saving effect

The patented, triangular water spray plate hole technology has the effect of 20~50% water saving while increasing water pressure compared to other shower heads.

#### Negative ions shower

The patented, triangular water spray plate hole technology makes the shower head release 421,000 negative ions per 1cc of water, so that you can enjoy both a high pressure flow from the shower head and a soft mist spray shower.

#### Antibacterial effect and removal of rust

The antibacterial ceramic ball inside of the shower head prevents bacteria from multiplying. the micro fabric filter removes debris and rust.

#### Contents of the package:

- aromatherapy shower head
- Aura Lemon filter
- Aura Micro fabric filter
- antibacterial ceramic filter

**1**  
YEAR  
WARRANTY

CAN BE ORDERED LATER

Toilets, bidets, urinal, standalone tanks,  
smart toilets

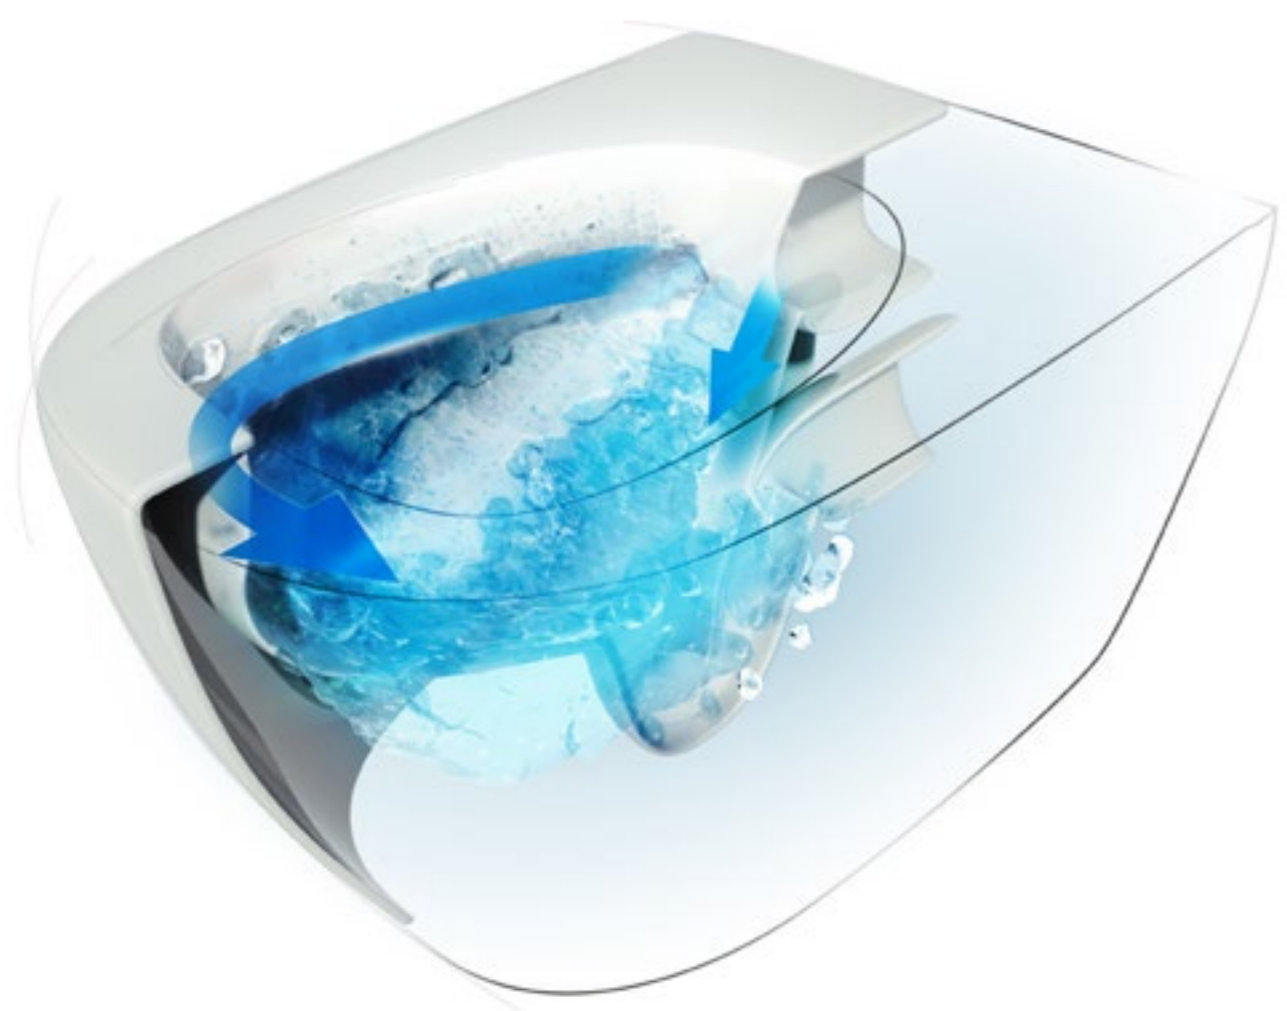

*corsica / clarice / angular / round / elle / clement / ditte /  
erin / bella / bella / evolo / lipari / delphi / luxor*

# Rimless WC

## Edgeless design

The most important property of the rimless toilettes is that there are no unattainable nooks and corners, therefore it is easy to keep it clean. Precisely designed shape - „The specially designed toilet bowl enables the water to clean the whole internal surface completely , without splashing“.

Rimless

### Soft close

Soft Close

The seat has a catch mechanism, which closes the cover softly, without external force, as expected nowadays. We make no compromise in this, and therefore all of our seats are made with this technology.

### Slim seat

Slim Seat

The seats perfectly fit to the corresponding bowl. The Clement collection's Slim seat provides an elegant look.

### Hidden fastening

Hidden fastening

The wall-mounted and the floor mount Wellis toilettes are supplied with hidden fastening. There is only one tiny fastening point. This makes the cleaning easier and more hygienic.

### Quick release

Quick Release

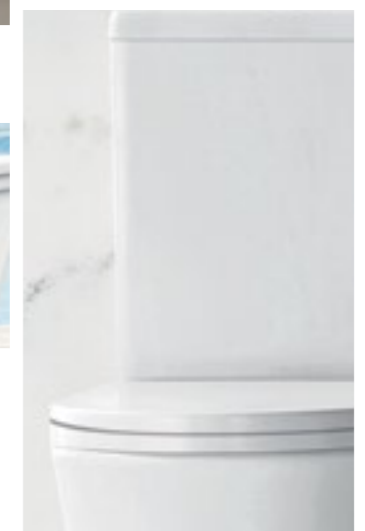

The Wellis seats are manufactured in the Quick release fashion. This solution provides easy installation, and facilitates the cleaning process too, because there's no need to remove the bolts, the seat can be removed with a single movement, and installed again the same way.

### Dual flush 4/6

Dual flush 4/6

The one-piece toilettes are all dual flush, with 4 or 6 litres, respectively.

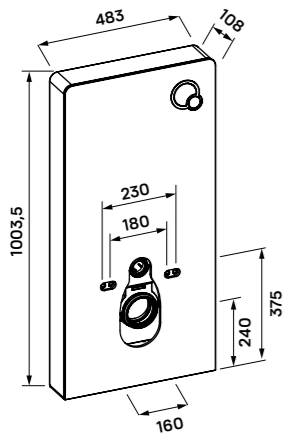

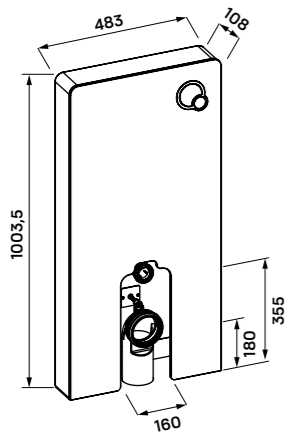

# corsica
